COFFEE MAKING MACHINES

The Gaggenau Expressive series fully automatic coffee machine

FULLY AUTOMATIC COFFEE MACHINE

Elevate your coffee experience

When creating your perfect coffee, you have two options: Classic mode for quick, simple preparation and Barista mode for professional-level customisation, where inputting the roast level of your beans will automatically adjust the grind and a variety of other parameters. These perfected settings can then be saved in personalised favourites, to be repeated quickly, easily, automatically.

Cleaning and descaling are also automatic, while intuitive animations and images provide clear, visual instructions on how to efficiently operate your coffee machine. Convenience, personalisation and precision turn a daily routine into a joy.

Perfect your beverages

Choose your mode. Classic mode offers a convenient way to configure your daily beverage, while Barista mode is for professional-level customisation. Every aspect can be adjusted: water and coffee quantity, milk ratio, grinding level, brewing temperature and contact time.

Advanced cleaning and descaling features ensure the purity of your beverage and the impeccable operation of your appliance, whether it is connected to a fixed water supply or relies on a manually filled tank. These cleaning processes are automatically initiated as needed, discreetly following your beverage preparation.
