VARIO COOLING

EXPRESSIVE SERIES

Do more than simply refrigerate, exhibit.

Vario fridge-freezer combination Expressive series

THE BEST WAY TO STAND OUT...

is to fit in

The Vario cooling Expressive series transforms any space into a visual masterpiece. Its doors, with handleless option, ensure seamless integration into your kitchen design. Let the new series enrich your living space with its furniture-like appearance.

Materiality matters

From the dark brushed stainless steel interiors to the solid anthracite aluminium-framed drawers and door bins - the high-quality materials are purposefully chosen and meticulously crafted to withstand the test of time. This is how surfaces turn into statements.

Brilliance. Upstaged

The Vario cooling Expressive series is an invitation to indulge in an enriching moment. Upon opening, the light in the cooling compartment theatrically awakens, luring you into an inspiring display of your culinary treasures within. The warm-white and glare-free lighting adjusts to ambient conditions and drawer interactions, always casting your ingredients in the most flattering light inside all cooling and freezing compartments.

Spacious, fully extendable freezer compartment including two interior drawers

UNCOMPROMISING ELEGANCE

The pinnacle of cooling

At the heart of the Vario cooling Expressive series is a professional freshness system. The full width chilled drawer and two extendable fresh climate drawers with humidity control gently embrace your most delicate ingredients with cushioned closing. To ensure ideal storage conditions on all levels, the new series offers an ethylene absorber and air filters that prolong freshness as well as a range of dedicated cooling programmes - perfected to set the right humidity and temperature for specific types of food.

Dark brushed stainless steel interior and solid anthracite aluminium door bins

Interact with the extraordinary

Let the Vario cooling Expressive series guide you with its adaptive light concept. It adjusts to the ambient conditions and, when a drawer is opened, dims the surrounding compartments. At the same time, the respective area on the display is highlighted. It also offers guidance on how to fully exploit the capability of the appliance, such as animated quick guides for maintenance. Furthermore, the Home Connect app allows you to control the new generation of cooling remotely from beyond your home using your digital device. Thanks to subtly integrated cameras, you can even check what food you have in your fridge or make use of the automatic programme selection with AI*. Every moment is elevated.

*Available in selected countries.

VARIO COOLING

400 SERIES

Modular, seamless, impressive

A fully integrated, built-in modular family: the Vario cooling 400 series refrigerators, freezers, fridge-freezers and wine climate cabinets can be partnered in a multitude of ways. You have the flexibility to create an impressive, stainless steel clad, elegant cooling wall, with or without handles. Alternatively, the handleless options are able to disappear discreetly behind your kitchen furniture.

The Vario cooling 400 series is reduced to the essence of pure refrigeration and an impressive design interior. You gently push the enormous door and it effortlessly opens to a professional-grade stainless steel interior with modern, anthracite aluminium elements and almost imperceptible clear glass shelving.

The minimalist internal aesthetic is accentuated by warm white, glare-free spotlights that dramatically and flatteringly illuminate your all-important ingredients.

Vario refrigerator 400 series

Solid anthracite anodised aluminium door racks

EFFORTLESS ACCESS TO FRESH INGREDIENTS

The two opening assist options allow even the largest and heaviest of doors to be opened effortlessly, either by pulling or, for the handleless option, with a gentle push.

As you would expect, cooling is accurate to within a degree. Ideal storage conditions are met inside the cooling drawer, preserving your meat and fish for longer, thanks to temperatures close to, or even at, 0°C.

Utilising a touch display ensures you can effortlessly navigate the system. Alternatively, you can control temperatures remotely via Gaggenau Home Connect.

To produce a reduced, pleasingly uniform, appearance: the easily adjustable, discreet, rail system, allows owners to align the height of the shelves and solid aluminium door bins of their refrigerator and freezer.

Fully extendible freezer drawer and warm white, glare-free LED lights

Large or small, our minimalist, clean lines make our cooling 200 series a pivotal addition to any kitchen.

Vario fridge-freezer combination 200 series

VARIO COOLING

200 SERIES

Warming your cooling experience

The modern kitchen is the heart of a connected, flowing home, a place where you create an atmosphere as well as cuisine. As such, its design becomes ever more welcoming and personal and less utilitarian and function-led.

The Vario fridge-freezers, refrigerators and freezers of the 200 series seek to continue your interior design ethos: performing perfectly, with sophisticated elegance. Blending into your furniture when closed, the refrigerator and freezer bathe the viewer in warm, soft light when open, revealing touches of light bronze in the door bins and dial as well as the natural grain of maple bottle holders.

Vario fridge-freezer combination 200 series

GRAND UNDERSTATEMENT

Touches of luxury

The Vario refrigerators 200 series fit into a 178 cm niche and blend in with your home's interior design.

The pleasingly tactile, zinc die cast humidity dial allows you to refrigerate fruit and vegetables or meat and fish at their optimal conditions, maintaining their freshness for longer.

The ample fresh cooling drawers never look cluttered thanks to the gradated frosted front. Both maple wood bottle holders connect together magnetically, gently securing various sizes of bottles including wine and magnums, with the grain of the wood adding a hint of the organic to the interior. Arrange your bottle holders on the shelf, three deep or five across.

And as you shut the door, it closes softly.

DESIGN HIGHLIGHTS

The interior completes your kitchen

A collection of luxurious elements have been brought together to create a sophisticated sensory moment for the chef and superior performance from your Vario 200 series. The experience begins when you open it. A gentle push is all it takes or, if that feels like too much, use your voice assistant and simply ask it to open.

The appliances are comprehensively yet softly illuminated. Bright and warm toned, the light panel, illuminated drawers and freezer lights emphasise the colours of your ingredients, so they are displayed as beautifully as they are preserved.

The substantial, light bronze toned, satin finished door bins match the clear glass shelf profiles and humidity dial.

The separate refrigerator and freezer complement one another perfectly: offering the same warm toned lighting, frosted drawers and open shelving.

COOLING

200 SERIES

More in a niche

This range offers a myriad of cooling solutions: you can lose yourself in up to 289 litres of cool volume or fit one of our refrigerators or freezers into a standard 60 cm slot. Large or small, our minimalist, clean lines make our cooling 200 series a pivotal addition to any room. Choose from a collection of capabilities such as distinct climate zones, fresh cooling drawers, 4-star freezer compartments and adjustable shelving.

...and free-standing

The free-standing fridge-freezer offers a striking 90.5 cm wide presence, enormous 573 litre volume and Gaggenau Home Connect. Open the impressive dark anthracite stainless steel french doors to access your filtered water dispenser, two fresh cooling 0 °C drawers with five preset settings for ideal storage and the stainless steel backwall. The freezer compartment is frost-free, fast freezing and offers an icemaker.
