LAUNDRY

WASHING MACHINE AND TUMBLE DRYER

Exceptional results, effortlessly

The Gaggenau washing machine and tumble dryer with heat pump are the perfectly coordinated laundry system. With matching tinted door and black control panels, the appliances also communicate with one another: Smart Dry programmes the dryer in anticipation of the washing machine's current load.

The washing machine offers an intelligent dosing system and a mini load option for fewer or single items. The dryer houses a self cleaning condenser heat exchanger and efficient twin rotary compressor: minimising energy, time and noise.

Both machines can reduce ironing with Steam Assist, while Gaggenau Home Connect offers personalised notifications and downloadable programmes for items such as pillows or sports shoes. Even loading is easier, due to spacious, well-lit drums and large portholes. Intelligent technology and design ensure a chore becomes a pleasure.

Free-standing 200 series stackable washing machine and tumble dryer
